

CHILD LIFE AND CREATIVE ARTS THERAPY DEPARTMENT

March 11, 2020

J-Zips  
Jordan and Jodi Harouche  
29 Pine Hill Rd.  
Great Neck, NY 11020

Dear Jodi, Jordan, and Friends:

Thank you for continuing to provide the J-Zip Medi-Port T-shirts in support of the Pediatric Hematology and Oncology Program at Cohen Children's Medical Center. The Child Life and Creative Arts Therapies Department is committed to helping children of all ages cope with serious illness and hospitalization through education, therapeutic activities, and establishing a sense of normalcy. Your generosity allows us to meet these goals for many children.

We are pleased to work with J-Zips to help our patients in the Pediatric Hematology and Oncology Program find a sense of normalcy. There are many unfamiliar and uncomfortable experiences facing our patients during their medical treatments. Your J-Zip T-shirts allow easy access for physicians and nurses to a patient's medication port while allowing the child to remain comfortably in their own clothing. It is empowering to our patients to have this option during a time when their choices are often limited. Please know that you have brightened the days for our patients.

I appreciate the thought and care you have given to ensure that our patients find comfort in these very special t-shirts while they are being cared for in the hospital. The Child Life and Creative Arts Therapies Department, in partnership with J-Zips, is able to improve the lives of hospitalized children. Thank you for your ongoing support.

Sincerely,

Cindy Rodriguez, MEd, CCLS  
Director, Child Life and Creative Arts Therapies Department
